I ship systems people actually use. Implementation project manager by trade. Founder of TK Hub - apps, websites, and dental IT - by practice. Built from the driver seat, the dental floor, and the cut. Currently finishing a Master's in AI and Machine Learning at Western Governors University and an AI certificate at UT Austin. Hire the shop, download the apps, or put me on a floor that needs the implementation to stick.

WHAT I DO

- Implementation project management: software, dental, and ops that have to go live
- Product: consumer apps (rides, work, night, race, road, play) and client websites
- Dental IT: MB2 floors, onboarding, the work that stays after the vendor leaves
- AI / ML: in training at WGU and UT Austin, applied to the products in this house

NOW

Founder - TK Hub / TK Works

Texas | tkhub.app

One house for every product: Curb, Booked, Zilt, Afterglow, Our People, WRACE, RADR, NOIR, 4AM Files, TK Dental. Websites $1,000 ($250 to start). Apps $5,000 ($500 to start). Dental IT monthly or per visit. Custom work after a ten-question brief.

School - WGU and UT Austin

In progress

Master's in AI and Machine Learning (Western Governors University). AI certificate (The University of Texas at Austin).

WORK

Implementation Project Manager - Lanvera

DFW, Texas

Customer-communications implementations. The job is getting the system live, not writing a deck about it.

Implementation / IT - MB2 Dental

Texas dental floors

Implementations that stick after the trainer leaves. Hardware, software, and the people who have to run it on Monday.

Wellfit Technologies

Health tech

Product and implementation work in health tech.

EDUCATION

- B.S. Management Information Systems - University of Texas at Arlington
- M.S. AI and Machine Learning - Western Governors University (in progress)
- AI certificate - UT Austin (in progress)
